

## Analyst/Associate, West Africa: Job description

Camco Clean Energy is looking for an Analyst/Associate with 3+ years' experience to be based in one of our offices in Accra, Ghana.

### About Camco Clean Energy

Would you like to have fun while contributing to the development of renewable energy in emerging markets? Do you have the skills needed to analyse and assess investment opportunities? If so, we would love to hear from you.

<https://www.camco.energy/>

Camco Clean Energy is a fund manager specialised in clean energy and climate finance in emerging markets. We have a fun, collaborative culture and are passionate about climate and impact. Our team is diverse and inclusive, supported by our diversity policy, gender action plan, progressive parental leave policy and flexible working arrangements.

Founded in 1989, the company has extensive hands-on experience originating, financing and building clean energy and electrification projects in developing and established markets in Africa, China, Southeast Asia, the USA and the Caribbean. Since its formation, the company has provided creative finance solutions to 180 projects worth \$15bn.

Camco is the manager of REPP, a \$200m facility started by the EIB and UN Environment, and funded by the UK government, to provide financing and advice to renewable energy projects in sub-Saharan Africa. In addition, Camco has a mandate for the development of energy efficiency and renewables in the Caribbean and is in the process of developing new investment vehicles.

Our team of around 20 experts is located in our offices in London, Helsinki, Accra, Nairobi and Johannesburg.

### The Role

Your responsibilities will include:

- Assisting the origination team with commercial and financial due diligence, performing market research and financial analysis, including review of financial models;

- Contributing to the drafting of investment papers before submission to internal and external Investment Committees;
- Participating in the review and quality control of papers under preparation by other team members;
- Supporting all aspects of investment portfolio management, including reviewing financing and management information and compliance with covenants;
- Undertaking targeted research and marketing efforts in order to support the development of a pipeline of new investment and fund opportunities.

### The Requirements

- Strong interest for impact investing and developing markets – experience in developing countries would be an asset;
- Degree in business, economics, finance, accounting, engineering or similar relevant field;
- 3+ years practical experience in a similar role; Industry experience is desirable;
- Excellent analytical skills, with a particular focus on financing modelling;
- Good written and oral communication skills in both French and English;
- Strong team player, with the ability to work independently and handle a variety of matters in a fast-paced environment;
- Willingness to travel.

You will be based in our Accra office (starting from our London office may be considered). Some short travels within West Africa and to our other offices will be required.

Flexible or part-time work is an option and can be discussed during the job interview.

### How to apply

Please send your CV along with a one page cover letter in English to Marindame Kombate, Investment Officer, and Benjamin Hugues, Head of Origination, [careers@camco.energy](mailto:careers@camco.energy) no later than 30 April 2020.

If you have any questions please do not hesitate to email us at the above address.
